

GVHP Grand CHOICE

Grand Valley Health Plan (GVHP) now offers the convenience, quality, and cost savings that ALL of our members enjoy, combined with the freedom to choose your provider

You mean I *DON'T* have to change my doctor?

With GVHP Grand Choice, that's EXACTLY what we mean! Grand Valley Health Plan understands the importance of relationships when it comes to choosing a health professional. As an organization, we are also focused on offering solutions that keep health care affordable and accessible for everyone. The flexibility of GVHP Grand Choice means that you need not sacrifice one for the other.

Just like with an HMO, members have the option of accessing "In-Network" services through the GVHP system, which can provide significant cost savings, particularly for routine or sick visits. However, at any point in time*, members can choose to direct their own care and select a provider of their choice. Member's then are eligible for "Out-of-Network" benefits.

Grand Valley Health Plan has contracted with one of the largest physician networks in the U.S. to assist with minimizing the cost of self-directed care and to provide greater freedom to decide who is delivering that care. GVHP Grand Choice members have piece of mind knowing that they have access to great benefits, wherever they go!

**Some services may require pre-authorization in order to be covered under GVHP Grand Choice.*

Maximize *Your* Health
with GVHP Grand Choice!
